INTRO TO LEAN MANAGEMENT

COURSE VISION

In today's competitive environment, we are challenged to do more with fewer resources. One of the best ways to increase effectiveness and efficiency is to adopt Lean Management techniques.

DURATION 4 HOURS

COURSE MISSION

You will work to understand the two main philosophies of Lean Management, identify the benefits of adopting a Lean approach and identify and reduce waste in your processes and procedures.

COURSE METHODOLOGY

- Identify the characteristics of a lean organisation
- Identify areas to improve within your organisation by utilising best practice checklists
- Understand customer value and focus on key processes to continuously increase it

WHO IS THE COURSE SUITABLE FOR?

This course is suitable for team leaders, project managers and those with procurement roles.
