# PROFESSIONAL DEVELOPMENT

## INTRO TO PROJECT MANAGEMENT

DURATION 3 HOURS

### COURSE VISION

Understand what great project management looks like, and practice how to get stakeholders on side to create a culture of clear individual and mutual accountability.

### COURSE MISSION

During the course you will develop skills to lead a team towards the delivery of a successful project, understanding how to be agile, responsive and sticking to plan, handling resources and costs, ensuring stakeholders are on board.

### COURSE METHODOLOGY

You will develop planning and communications skills to ensure that each member of your team is accountable, responsive and focused on the bigger picture.

### WHO IS THE COURSE SUITABLE FOR?

This is an ideal introduction course to all future project managers, or those that wish to enhance their skills or refresh their knowledge on the most recent project management practices.
